**2.** Of letters or writing: Having the large rounded forms (not joined to each other) characteristic of early Greek and Latin manuscripts; also (in looser use), of large size, capital.

The term is also applied to letters having the form of the uncial, irrespective of size. When used in its strict sense, *new lat.* is distinguished from *capital*, which denotes the more original, unrounded forms of the letters.

Jerome's *unciales litteræ* (Prol. Job) is commonly explained as meaning 'letters of an inch long'; his use of the word is accompanied by the phrase *ut vulgo aiunt*, and the literal sense was perhaps not seriously intended. The emendations *initiales* 'initial' and *uncinales* 'hooked, bent', have been suggested.

1712 Hearne *Ment. Faucon's Trav. Italy* ii. 29 The Book is writ in the Oblong uncial Character. *a* 1734 North *Lives* (1826) I. 20 It is not well to write, as the fashion now is, uncial or semiuncial letters. 1784 Astle *Orig. & Progr. *transf.* 1847 EMERSON *Repr. Men. Plato* ad fin., Plain old uncle as he [Socrates] was,..the rumour ran, that [etc.].

c. *Uncle Sam*, the government (or people) of the United States of America.

The history of the expression has been traced by A. Matthews in *Proc. Amer. Antiq. Soc.* XIX. 21–65; see also R. H. Thornton *Amer. Glossary* 916. The suggestion that it arose as a facetious interpretation of the letters U.S. is as old as the first recorded instances, and later statements connecting it with different government officials of the name of Samuel appear to be unfounded.

1813 *Troy Post* 7 Sept. (Matthews), Loss upon loss, and no ill luck stirring but what lights upon Uncle Sam's shoulders. 1839 N. HAWTHORNE in Longfellow *Life* (1891) I. 334 Uncle Sam is rather despotic as to the disposal of my time. 1850 — *Scarlet L.* Introd. † 2. To chet or swindle (*of* something). *Obs.*

Perhaps originally implying a pretence of being uncle to the person victimized; but the association with Cozen v. and *sb.*, which appears in the quots., makes it also possible that *uncle* is merely a punning variation of *cousin*.

*a* 1592 Greene *Selimus* (1594) H ij, This is some cousoning conicatching crosbiter, that would faine perswade me he knowes me, and so vndera tence of familiaritie and acquaintance, vncle me of victuals. 1606 *Sir G. † b. To deprive (an uncle) *of* life. *Obs.*$^{-1}$

1602 Chettle *Hoffman* 1. (1631) C 3, Vncle, ile vncle thee of thy proud life.

**-uncle,** *suffix*, representing OF. *-uncle (-oncle)* and ultimately L. *-unculus, -uncula*, in a few words, in most of which it retains its diminutive force. The earliest of these is *carbuncle* from the 13–14th cent.; †*portiuncle* appears in the 15th, *caruncle, furuncle, homuncle* in the 17th, *peduncle* in the 18th, and *oratiuncle* in the 19th. New formations without Latin originals are rare, and the suffix has little independent existence though occasionally employed as in the following examples.

1841 Bentham *Offic. Apt. Maximized, Indic.* (1830) 71 Not a *reformatiuncle* of his (as Hartley would have called it) did Romilly ever bring forward, that he had not first brought to me. 1875 [see Pseudonymuncle].

**Under-** (ˈundər), *prefix*[1], representing OE. *under-*, = OS. *undar-*, OHG. *untar-*, ON. *undir-*, etc. (see UNDER *prep.*). In OE. about eighty words with this prefix are recorded, but only fifteen or sixteen of these are of frequent occurrence. Of the total number about fifty are verbs, and twenty-five nouns, the adjectives being few and rare. In OHG. there are also many examples both of verbs and nouns, in ON. of nouns only; on the other hand there are few recorded examples in OS., and none in Gothic.

**2.** In OE. (as in OHG.) a considerable number of the compounds with *under-* were clearly suggested by Latin forms with *sub-* (*suc-*, etc.) and occur only as renderings of these, e.g. *underberan*, supportare, sustinere; *underbēged*, subjectus; *underbrēdan*, *-bregdan*, substernere; *undercerrende*, subvertens; *undercuman*, subvenire. The frequency of such forms no doubt contributed greatly to establish the vogue of the prefix in ordinary use. The practice of rendering L. *sub-* by *under-* is extensively followed in the earlier Wycliffite version of the Bible, and gives rise to a large number of unique or unusual forms, as *underburn*, *-cry*, *-drench*, *-follow*, *-grow*, *-heave*, *-hile*, *-join*, *-laugh*, *-lead*, *-minister*, *-mow*, etc., which are illustrated below, together with some others occurring in the anonymous translation of the Pauline Epistles. Similar examples are occasionally found in other ME. translated texts, as *underorn*, *-slake* (q.v.), after L. *subornare*, *sumministgare*.

**3.** In combination both with verbs and with nouns various senses of the prefix were already developed in OE., and further variations have arisen in the later language, the starting-point for new developments being usually the Elizabethan period. In most of its senses *under-* can be freely employed to form new compounds, the meaning of which is obvious except when there can be found in some special or technical connexion. In some of these general types *under-* is correlative to OVER-, and not infrequently the actual compound in *under-* is entirely due to the previous use of one in *over-*.

In the following sections a number of the more casual formations are given by way of illustration; those which have a more permanent character, or which for some reason require special treatment, are entered in their alphabetical places as main words. The uses which are most capable of giving rise to new formations, of which complete enumeration is impossible, are 4 a, 5, 6, 9, 10 a, b. Altogether the senses of the prefix may be classed under four heads:—

**I.** Denoting local position.

**4.** With verbs. The following variations are found in OE. and in the later language: a. Denoting action (or continuance of a state) carried on under or beneath something, as OE. *underberan*

to support from below, *underdelfan* to dig beneath, *underetan* to eat away, to sap, *underiernan* to run beneath, etc., ME. *undercut*, *-dig*, *-grow*, *-hole*, *-mine*, *-pitch*, *-shore*, *-strew*, and the later *underbind*, *-brace*, *-build*, *-gird*, *-hew*, etc. b. Denoting the action of moving so as to be or to get under something, as OE. *underflowan* to flow under, *underhringan* to descend beneath, *underscēotan* to pass under; ME. *undercreep*; also with causative force, as OE. *underbregdan* to spread under, *underūtōn* to put under, *understingan*, to thrust under, ME. *underput*, *-set*. Additions to this group are not frequent in the later language, but occur in *undercrawl*, *-dive*, *-run*, *-work*, and with slight variation of sense in *underpeep*, *-peer*. c. Rarely, the sense of 'from below' is found, as in *underpeep*, *-shine*.

In the dictionaries of Florio (1611) and Hexham (1647), *under-* is used in the above senses to form a number of compounds which are merely suggested by Italian forms in *-zop-*, *-zotto-*; and Dutch in *under-*, as *underhand*, *-knit*, *-left*, *-mark*, *-note*, *-roof* (Florio), *underfume*, *-gripe*, *-lift*, *-press*, *-smoke* (Hexham). In addition to verbs, the following miscellaneous examples include instances of the ppl. adj. and agent-noun.

1900 *Buck's Handbk. Med. Sci.* VIII. 142 (Cent. Suppl.), The building is very solidly built, but 'undercellared only. 1894 Nature 53 Oct. 593/2 An 'underfolded and underthrust knot of younger strata. 1885 Forby *Voc. E. Jrnl. Sci.* XLV. 306 (*heading*), *Underthrust Folds and Faults.

d. A noun of action with *under-* may have the same form as the verb, as *undercut*, *-gnaw*, *-hang*, *-lay*, *-lie*, *-lift*, *-mine*, *-run*, *-score*, *-spin*, *-thrust*.

1895 J. J. Raven *Hist. Suffolk* 1 The coast line has suffered, and still suffers, from the constant undergnaw of the German Ocean.

5. With nouns: a. In names of garments worn under other articles of clothing, found in OE. *underhwīsl*, *-syre*, but not common till the 16th century, when *undercap*, *-forebody*, *-frock*, *-garment*, *-girdle*, *-sleeve* occur. The following are examples of recent or less usual compounds.

Contrasted with Over 8 c, and in modern use sometimes replaced by Sub- 3.

1895 *Daily News* 24 Dec. 6/3 The chiffon 'under-bodice being visible between the two sides. 1612 Florio, *Sottomanto*, an *under-cloake, a Cassocke. 1894 G. Society* iii. 144, I should like to know how often the advocates of linen change their over-*under-flannel.

b. Denoting that the thing specified is either placed below something else, or is the lower in position of two similar things; the two cases are only clearly distinguishable when it is usual for the things to go in pairs. The use is very rare in OE. and ME., but begins to extend in the 16th century and is common from the 17th. When pairs of things are contrasted, *under-* becomes equivalent to *lower* (as *over-* to *upper*), and readily assumes an adjectival function: see Under *a.* 1 *b.*

c. Denoting position below a surface or covering, or at a depth. Examples of this occur from the 17th century, but are not common until the 19th.

1856 Kane *Arct. Expl.* II. i. 26, I hope that the *underbottom ice exceeds that height. 1892 Meredith *Poet. Wks.* (1912) 325 There chimed a bubbled *underbrew With witch-wild spray of vocal dew. 1894 Crockett *Raider* (ed. 3) 286 The rippling tide..swirling in the smooth places with an oily *underbubble. 1869 J. Capes *Lady of Darkness* xviii. 151 There must be *underwarmth somewhere for the surface so to flower into colour.

d. Denoting something which is either covered (completely or partially) by, or is subordinate to, something of the same kind. An early example of this is *underwood* (1325), followed later by *undergrowth*, *-shrub* (*c*1600). Other examples are mostly of recent date, and show considerable extension of the usage, as in *underfleece*, *-fur*, *-marking*, etc.

1866 Sartorius *Week in French Country Ho.* (1902) 33 Working like a galley-slave in order to get the underpainting of my picture done before coming over. 1873 E. Spon *Workshop Receipts* Ser. 1. 420/1 The colour should be a trifle deeper than the undergrounding. 1901 *Smithsonian Rep.* 405 Where sheep have been allowed to graze..the undervegetation is destroyed. 1909 Mrs. Smith Lewis *Codex Cantuar. Rescr.* Introd. p. xiii, The under-script of a palimpsest is seldom homogeneous.

e. With the sense of 'situated on the under side'.

1888 *Century Mag.* XXXVI. 703/1 Its head and back are blue, its throat and breast red, and its underfeathering white. 1902 Cornish *Naturalist Thames* 45 The parti-coloured grey and yellow *under-colouring of their wings.

II. Denoting inferiority in rank or importance.

6. a. With designations of persons, esp. of subordinate officers or officials. This use occurs in OE. in *undercyning*, *-dīacon*, *-gerēfa*, *-lādtēow*, *-þēow*, becomes common in ME., and is extensively employed from the latter part of the 16th century. The meaning is however as frequently expressed by Sub- 5 *a* and 6.

Examples of *under-* prefixed to a term of general import are rare, but *underman* occurs in the 14th cent., *underboing*, *underfellow* in the 16th, *undersvain* in the 17th.

1351 *Eng. Gueldres* xv. *Preston*, (1.) is governed by a mayor, recorder, 8 aldermen, 4 *under-aldermen. 1687 Miege *Gt. Fr. Eng.* 125 The ministers are Christs *under-vine-dressers. 1854 *Poultry Chron.* I. 388/1 Abounding with game..which, by game-keepers and *'under-watchers', was..rigorously preserved.

b. With other nouns, in the sense of 'subordinate, subsidiary, minor'. An early instance of this is *underhēap* (*c*1579); others, such as *underaccident*, *-action*, *-cause*, *-ministry*, etc., occur in the 17th cent. Later use has the tendency is to employ either *sub-* (see Sub- 5 b, c, d) or an adjective, but A. Tucker *Light Nat.* (1768) has *under-aim*, *-plan*, *-scheme*, *-society*, *-species*, *-stage*.

1598 Florio, *Sottodistintione*, an *vnder-distinction, or subdistinction. 1711 Swift *Jrnl. Stella* 28 Apr. (1901) 203 All the *under-hints there are mine too. 1692 Norris *Pract. Hist.* I. v. 200 The Lathe and the Rape may represent the *underthirds of the Heptarchic kingdom. 1648 Hexham II, *Onder-vooght*, *Under-tuteragie, or *Under-wardship.

7. With verbs, denoting reduction to (or acceptance of) inferior or subordinate standing. Chiefly OE., as *underbīegan* to subject, *underbūgan* to submit, *underþēodan* to subject, subjugate; and ME., as *undercast*, *-put*, *-throw*. See also *undershining*, *-sphere*, *-study*, *-sweat*, *-thrown*.

*Under-* is rarely employed in the sense of Sub- 9 (*b*): Florio (1611) has *under-appoint* rendering It. *sottodelegare*.

III. In figurative senses.

8. With verbs. a. In OE., various secondary meanings of *under-* are represented by such verbs as *under(be)ginnan* to begin or attempt, *underfōn* to receive, *undergietan*, *-niman*, *-standan* to understand, *underscēan* to investigate. Several of these survive in ME., as *underfo*, *undergete*, *-nim*, *-stand*, *undersceche*; and a few more are added, as *underfind*, *-grope*, *-take*. In later examples the sense is usually that of (secret) investigation, as *underfeel*, *-look*, *-search*, *-watch*, or of unobserved action, as *underhear*. In addition to the verbs some agent-nouns occur, as *under-dealer*, *-plotter*, *-puller*.

Florio (1611) renders It. *sottosopere*, *-ridere* by *underknow*, *-smile*.

b. From the end of the 16th cent. *under-* is used with verbs in the sense of 'below ( = at a lower rate than) another person', as in *underbid*, *-buy*, *-sell*, *-spend*, *-work*.

c. Occasionally the sense is 'to a point or degree below what is normal or customary', as in *undercooled*, *-hew*.

d. Very rarely, subordinate action is implied, as in *underlet* = sublet.

9. With nouns, denoting actions, etc., which lie or are kept beneath the surface or in the background. An early instance is *undercraft* (*c*1400); others occur from the 17th cent., as *underdealing*, *-thought*. Modern instances are chiefly of an individual character.

1857 Heavysege *Saul* (1869) 42 Thine eyeballs roll, As if from some great *under-agitation. 1830 Coleridge *Church & State* (1839) 274 A sort of *under-consciousness blends with our dreams. 1876 T. **IV.** Denoting insufficiency or defect.

**10. a.** With verbs. From the latter part of the 16th cent., by contrast with Over- 27, *under-* is prefixed to verbs to imply that the action falls below the usual or proper standard, and thus acquires the sense of 'at too low a rate', 'too low', 'too little', 'insufficiently'. Early instances are *underprize, -value*, others of slightly later date are *underbuy, -charge, -rate, -reckon, -sell*, etc. Subsequently the use becomes extremely common, especially in the sense of 'insufficiently, not enough', and occurs frequently with pa. pples. and ppl. adjs. Examples of vbl. sbs. (cf. b) are also included in the following illustrations.

1885 *Pall Mall G.* 14 Feb. 3/2 The..over-worked and *under*-accommodated class of reporters. 1862 *Lond. b. With nouns, in the sense of 'insufficient, deficient, defective', contrasted with Over- 29. Examples occur in the 17th cent. in *underprice, -rate, -value, -wages*, and never uncommon in later use, though less frequent than the verbal forms.

1895 *Westm. Coal-m.* 268 "*Under ventilation*, too little air circulating in a mine.

**c.** With adjectives *under-* is rarely employed as the opposite of Over- 28, except when directly suggested by the latter, e.g. *under-scrupulous* as the converse of *over-scrupulous*; *underhonest* (Shaks.) in contrast to *overproud*; *under-ripe*, etc.

**11.** In words formed with *under-* the stress is variable. Normally it falls on the stem in verbs (including participles in predicative use) and on the prefix in nouns, adjectives, and attributive participles, with a secondary stress on prefix or stem respectively, whenever form or sense makes a double stressing natural or necessary. Even in verbs, however, the prefix naturally takes either the main or an equal stress whenever it becomes emphatic through contrast either with the simple verb or with a compound in Over-.

**12.** Compounds in which the two parts are not felt to be distinct are written as one word without a hyphen. In other formations the use of the hyphen is variable, and depends to a great extent on the form or the frequency of the word. Complete separation of the prefix, common in older usage, is now restricted to instances in which *under* may be taken as an adjective. Examples of these have been included under the compounds, as no clear distinction can be drawn between the two.

**Under-** (ˈʌndəɹ), *prefix*[2], originating in the coalescence of the preposition Under with a following noun, the compound being then usually employed as an adj. or adv., as Underfoot, -ground, -hand, -stairs, -water. In attributive use these compounds have the stress on the prefix.

Purely adjectival formations, as *under-celestial* (Florio), *-natural* (1641), *-proficient* (1703), are rare. An unusual type occurs in Undergraduate.

1892 *Daily News* 1 Feb. 2/3 The Indian season being..dull in consequence of *under*-average grain crops. 1854 *Poultry Chron.* I. 288/2 It is obvious that..an *under*-over show! the..most advantageous over an exposed one. 1899 Kipling *Stalky* 83 By some accident of *under*-floor drafts. 1886 *Pall Mall G.* 24 Aug. 4/2 The substitution for the old *under*-guard lever of the 'snap', or spring action for opening the brake. 1876 T. In all the Germanic languages the meaning shows a parallel development to that traceable in English; where the word survives it usually denotes either midday or afternoon or a meal taken at these times.

With some variation of form, *undern* is common in OE. and ME. down to the 15th cent.; in later use it is restricted to dialects of the midland or northern counties and the south-west of Scotland. In addition to the forms given above, some northern dialects exhibit (from the 17th c.) variants with a prefixed *d-*, as *downdrens*, *daundren*, *downder*, etc. (*Eng. Dial. Dict.* s.v. *Downdrens*). The OE. *ær undern* also survived in dialect use, and appears as *earnder*, *eender*, etc. (see YRNDER), while OE. *ofer undern* appears in the 15th c. as *orendron*, *ornedrone*, in the 17th as *ownderon*, *arndern*, and later as *ownder*, *oandren*, etc. (*Eng. Dial. Dict.* s.v. *Underin*). Both of these have equivalents in mod. N. Fris. (dialect of Sylt), viz. *trönner*, *irner* forenoon and *aurönner*, *aurner* afternoon.]
